## **Paulo J Palma**

Paulo J. Palma was born in 1977 in Madeira Island, Portugal. He graduated in Dentistry from the Faculty of Medicine of the University of Coimbra in 2001. In 2005, he finished his postgraduate in Endodontics and Operative Dentistry, and in 2009, he received his master's degree in Experimental Pathology at the same University.

Dr P.J. Palma obtained PhD in Endodontics in 2013 from the University of Coimbra (summa cum laude). He has published more of them 35 research articles (Google Scholar with 748 citations h-index=19; i10-index=21/ Scopus: h-index=15/ Web of Science; h-index=15 and ResearchGate h-index=16), including in journals such as Journal Endodontics, International Endodontic Journal, and Clinical Oral Investigations, Odontology, Biomaterials Science, Journal of Materials Chemistry B and Biomedicines, and others. His current research interest includes endodontic regeneration procedures, applications of novel biomaterials and nanomaterials to improve root canal therapy and vital pulp therapy for the treatment of endodontic infections.

As an educator, he is an Assistant Professor at the University of Coimbra to teaches experimental classes to Endodontics degree students and postgraduate endodontics. Since 2015, He is also in charge of the discipline of Endodontic III of Master integrated Dental Medicine at the Faculty of Medicine. He is the sub-director of the Center for Innovation and Research in Oral Sciences (CIROS) of FMUC and an integrated member of the Center for Research and Innovation in Dental Sciences from 2019. He has participated in 22 national and international research projects and is an active collaborator in 14 projects. Prof. Palma is the main supervisor of MSc and PhD students. He was acknowledged for his scientific excellence with twenty Merit Awards such as the personality of the year in Endodontics 2014 (Portugal) and the 5th edition of the Oral Health Awards.

He is currently a certified member of the European Society of Endodontology (ESE), Member of the Scientific Advisory Board of the Journal of Endodontics, Scientific Board Member of the Portuguese Society of Endodontology, Scientific Board Member of the Portuguese Society of Digital Dentistry and European Academy of Digital Dentistry. He is a co-founding member of the Portuguese Society of Digital Dentistry and a founding member of the European Academy of Digital Dentistry. He is a member of the following national and international scientific associations including an active member of the International Association for Dental Research (IADR); member of the Scientific group of Pulp Biology and Regeneration and Dental Materials Group of the IADR; member of the International Association for Dental Traumatology; International member of the American Society of Endodontists. Also, He serves as a peer-reviewed for more of the 70 different journals (Scientific Report, Journal of Endodontics, International Endodontic Journal, European Endodontic Journal, and MDPI Journals). He is an Editorial board member of the European Endodontic Journal, BCM Oral Health, Frontiers in Dental Medicine. Top Reviewer 2019 for Web of Science, and with more than 528 articles and verified reviews for more than 80 Journals, such as Journal of Endodontic, International Endodontic Journal, Scientific Reports, Clinical Oral Investigations, European Endodontic Journal, BCM Oral Health, Journal of Biomedical Materials Research Part B: Applied Biomaterials, and many MDPI Journals. Recently, he has published research papers in the areas of endodontics, bone replacement materials; biomaterials; canal instrumentation materials; canal filling materials and pulp regeneration, antimicrobial, biocompatibility, antimicrobial, and nanomaterials.
